Your daily overview

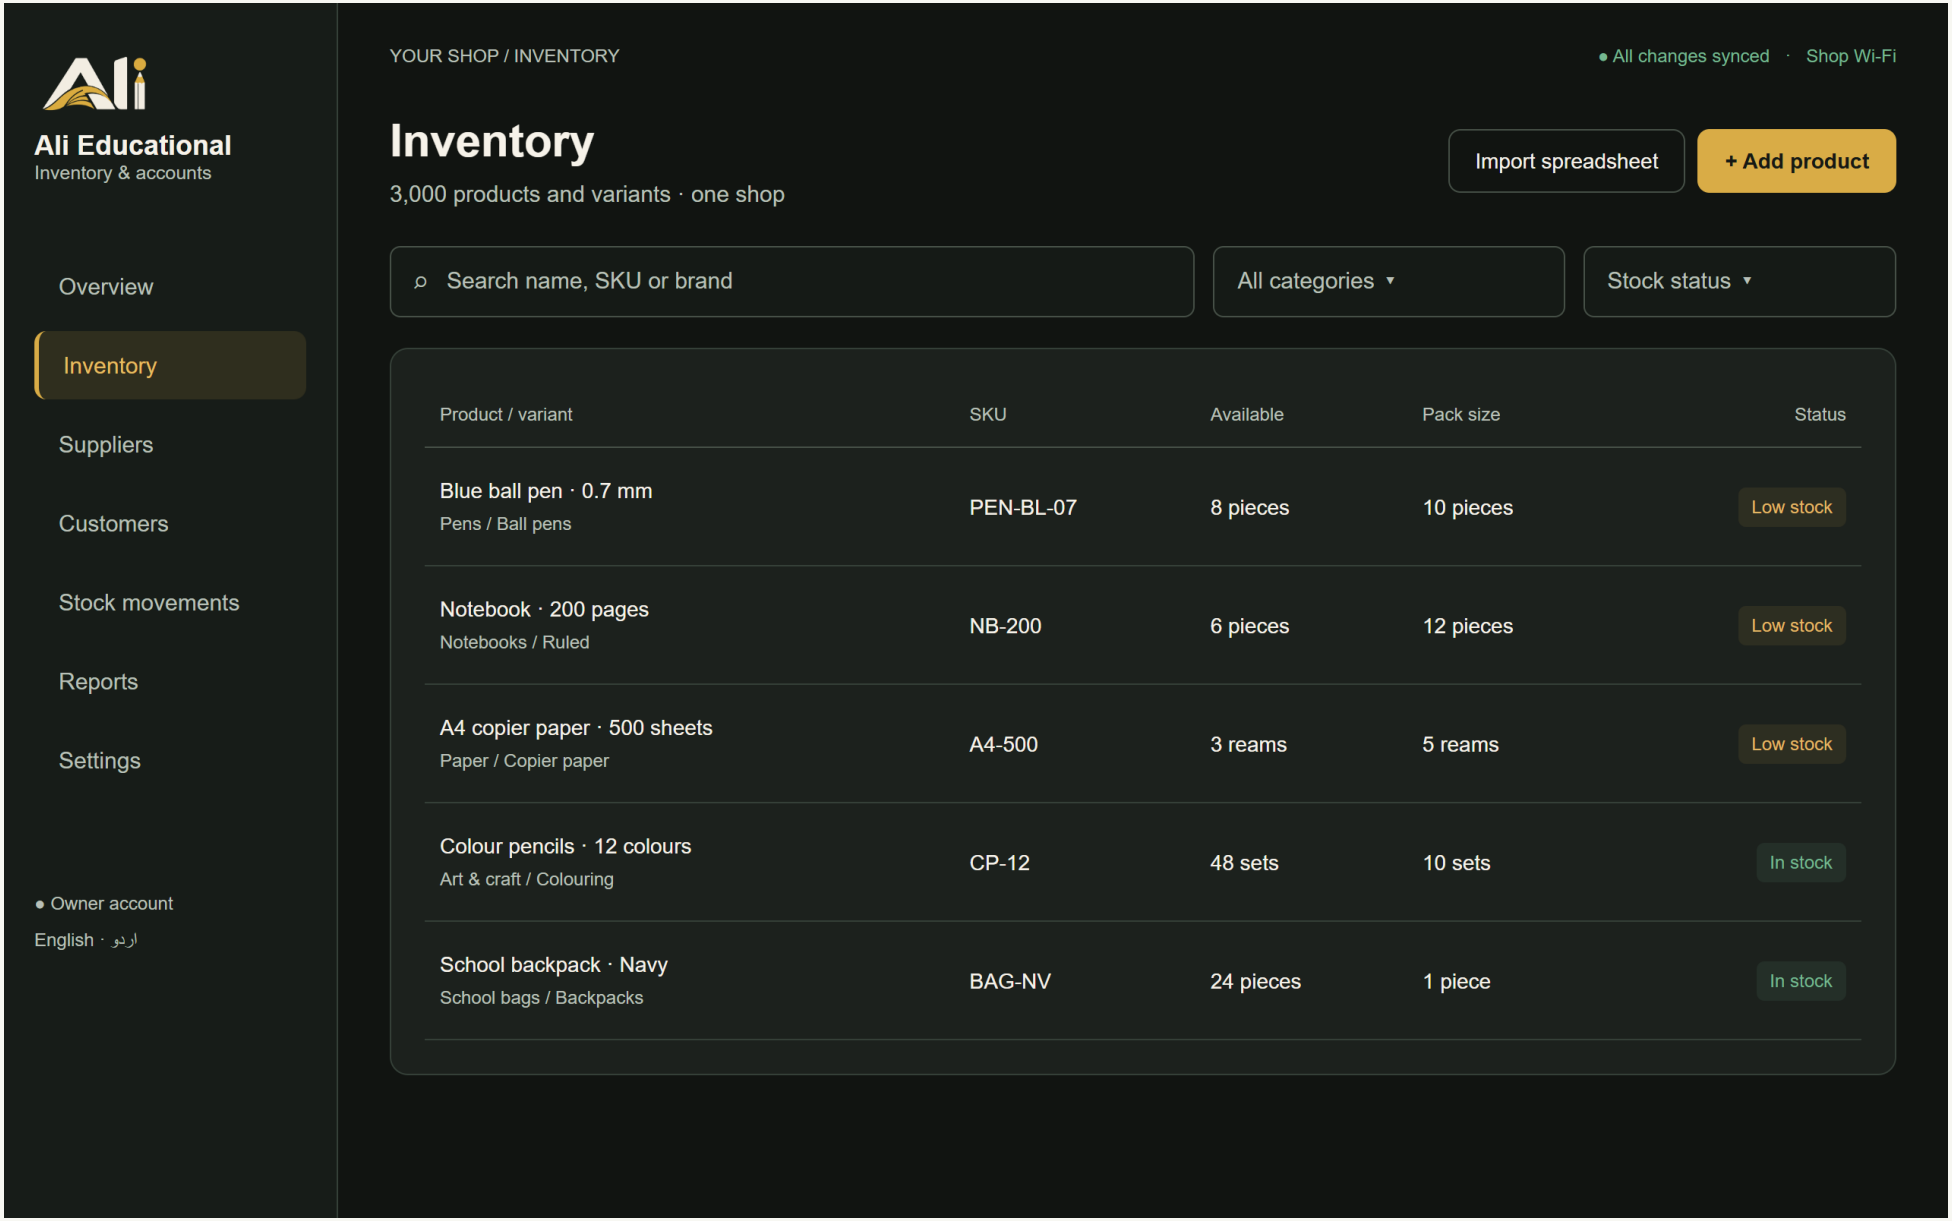

Stock and unpaid balances lead the dashboard. Billing is kept out of the main workflow.

Concept screens only. All names, amounts and stock figures are illustrative. Logo treatment is a draft.

Find and manage stock

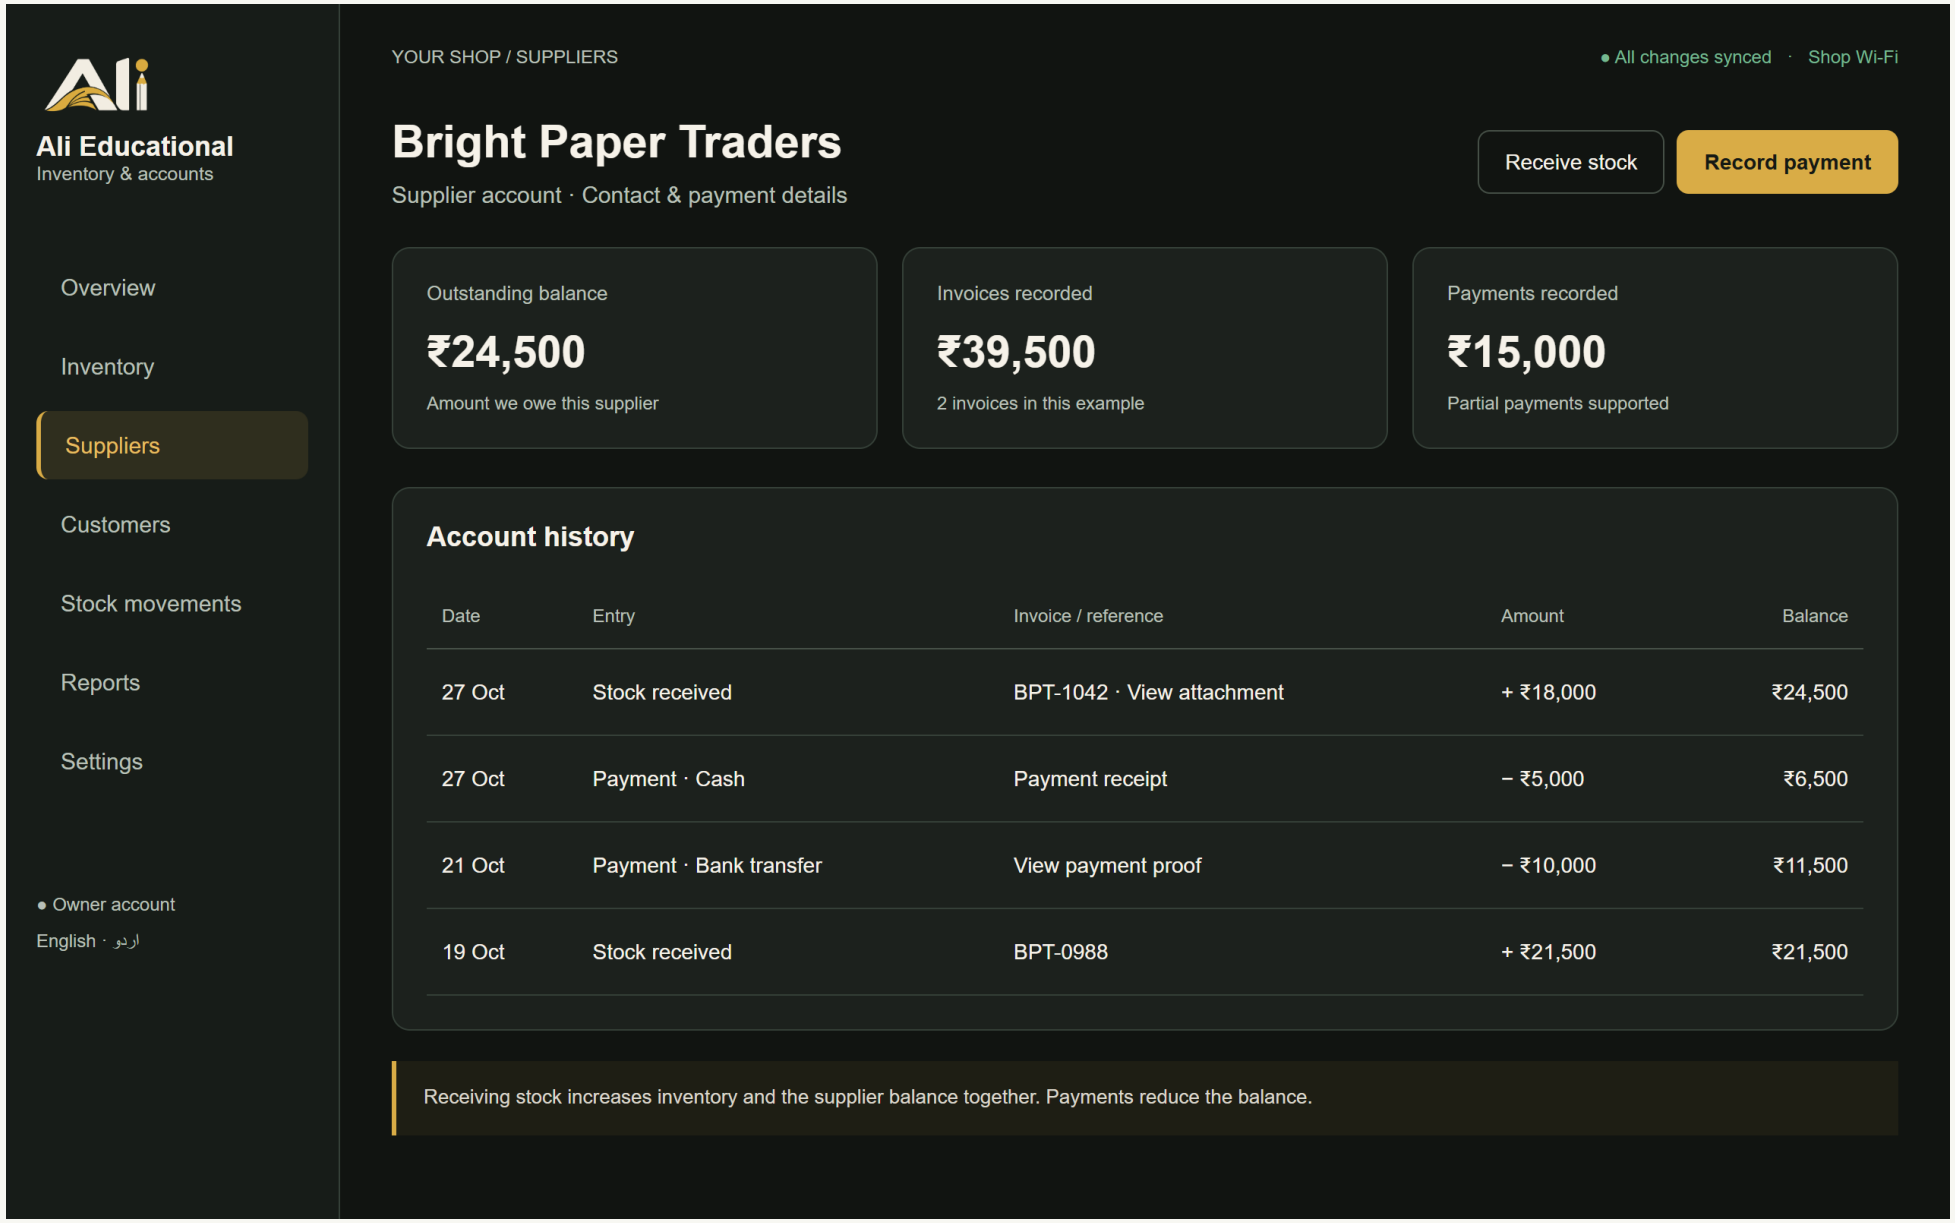

Search variants, check pack sizes, and see low stock without opening a billing screen.

Concept screens only. All names, amounts and stock figures are illustrative. Logo treatment is a draft.

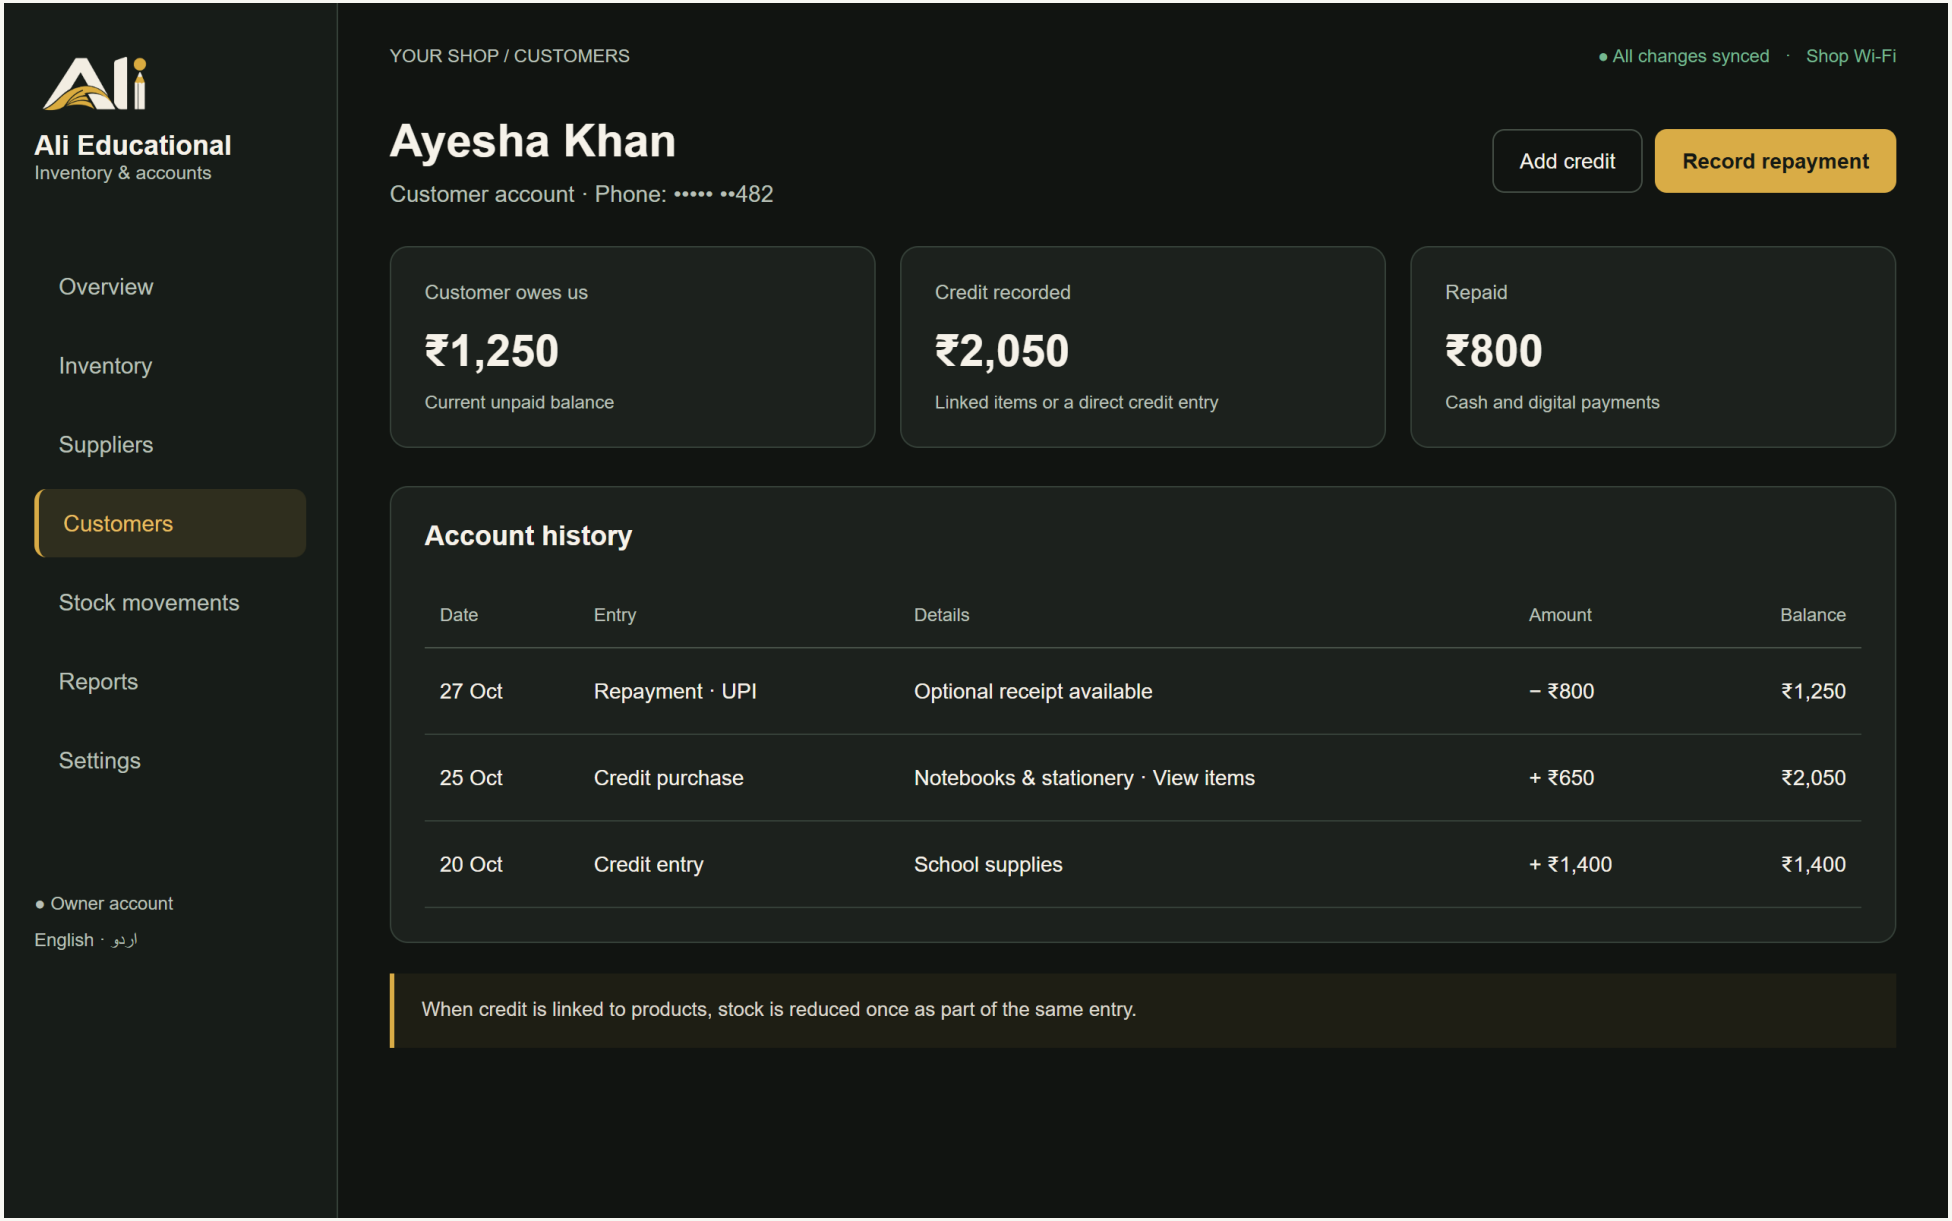

Know whom you owe

A supplier account combines invoices, partial payments, attachments, and the remaining balance.

Know who owes you

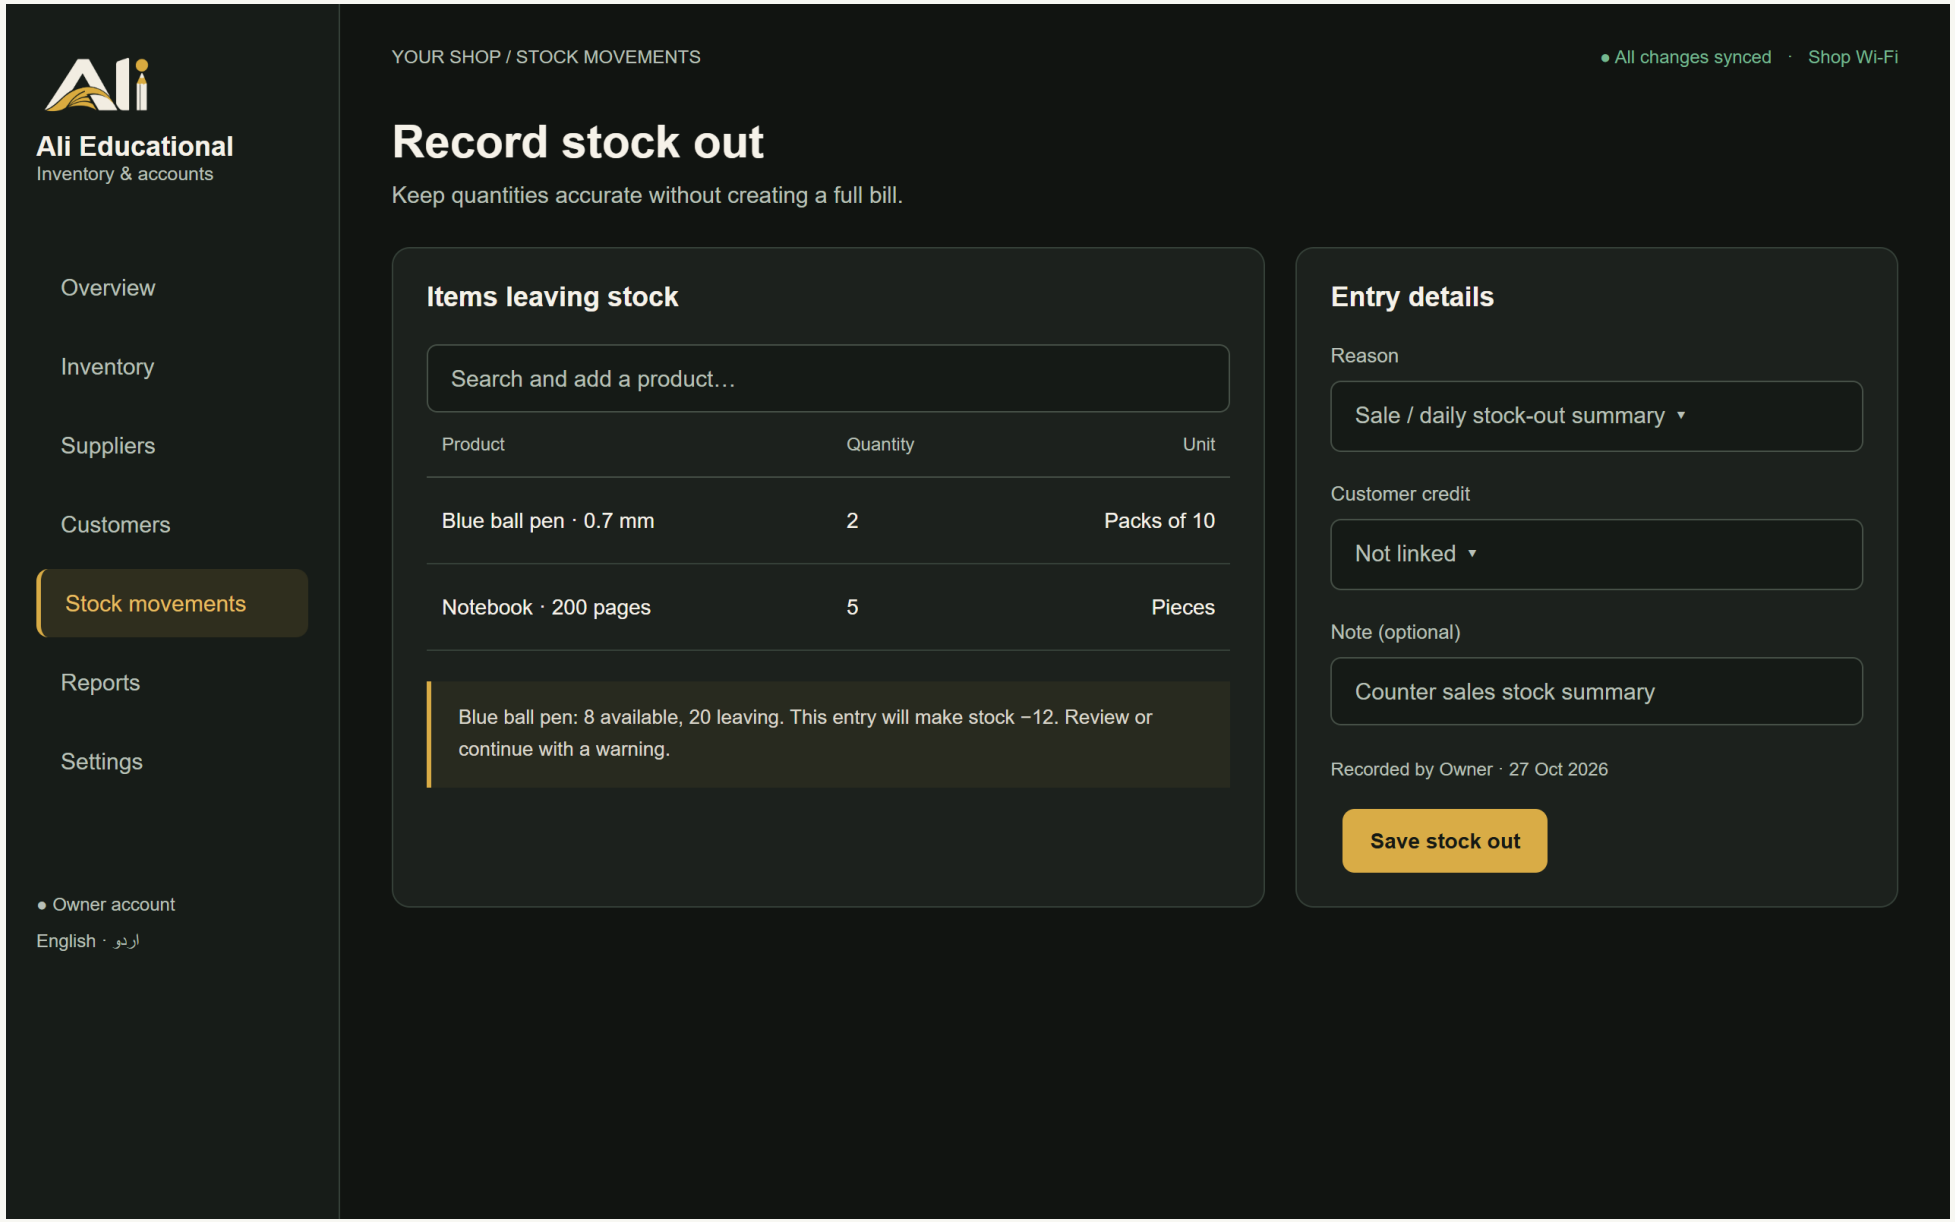

Record credit and repayments with a clear running balance. A receipt is optional.

Concept screens only. All names, amounts and stock figures are illustrative. Logo treatment is a draft.

A quick way to record stock leaving

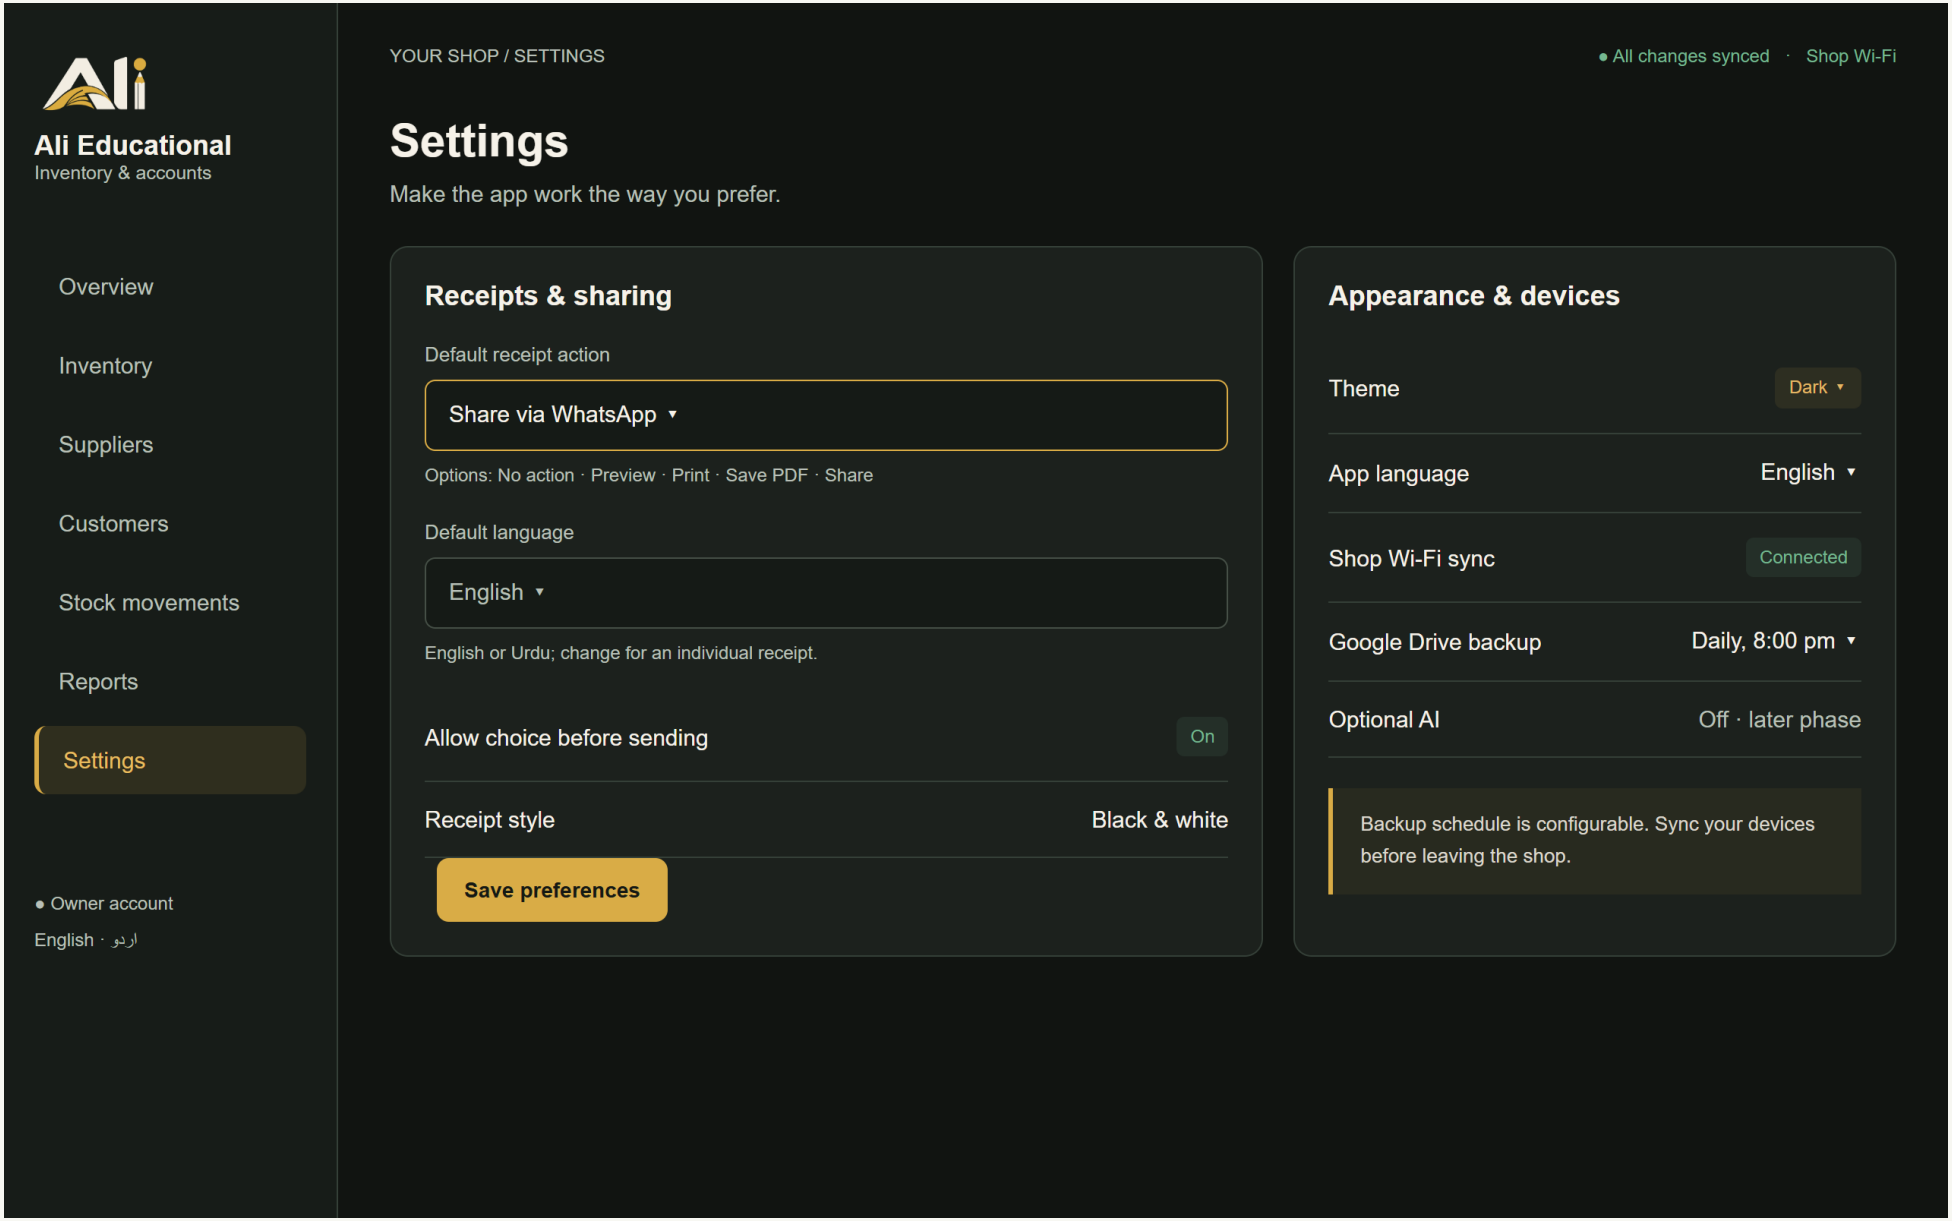

Record sale quantities, shop use, giveaways, or losses. Detailed checkout remains optional for later.

Concept screens only. All names, amounts and stock figures are illustrative. Logo treatment is a draft.

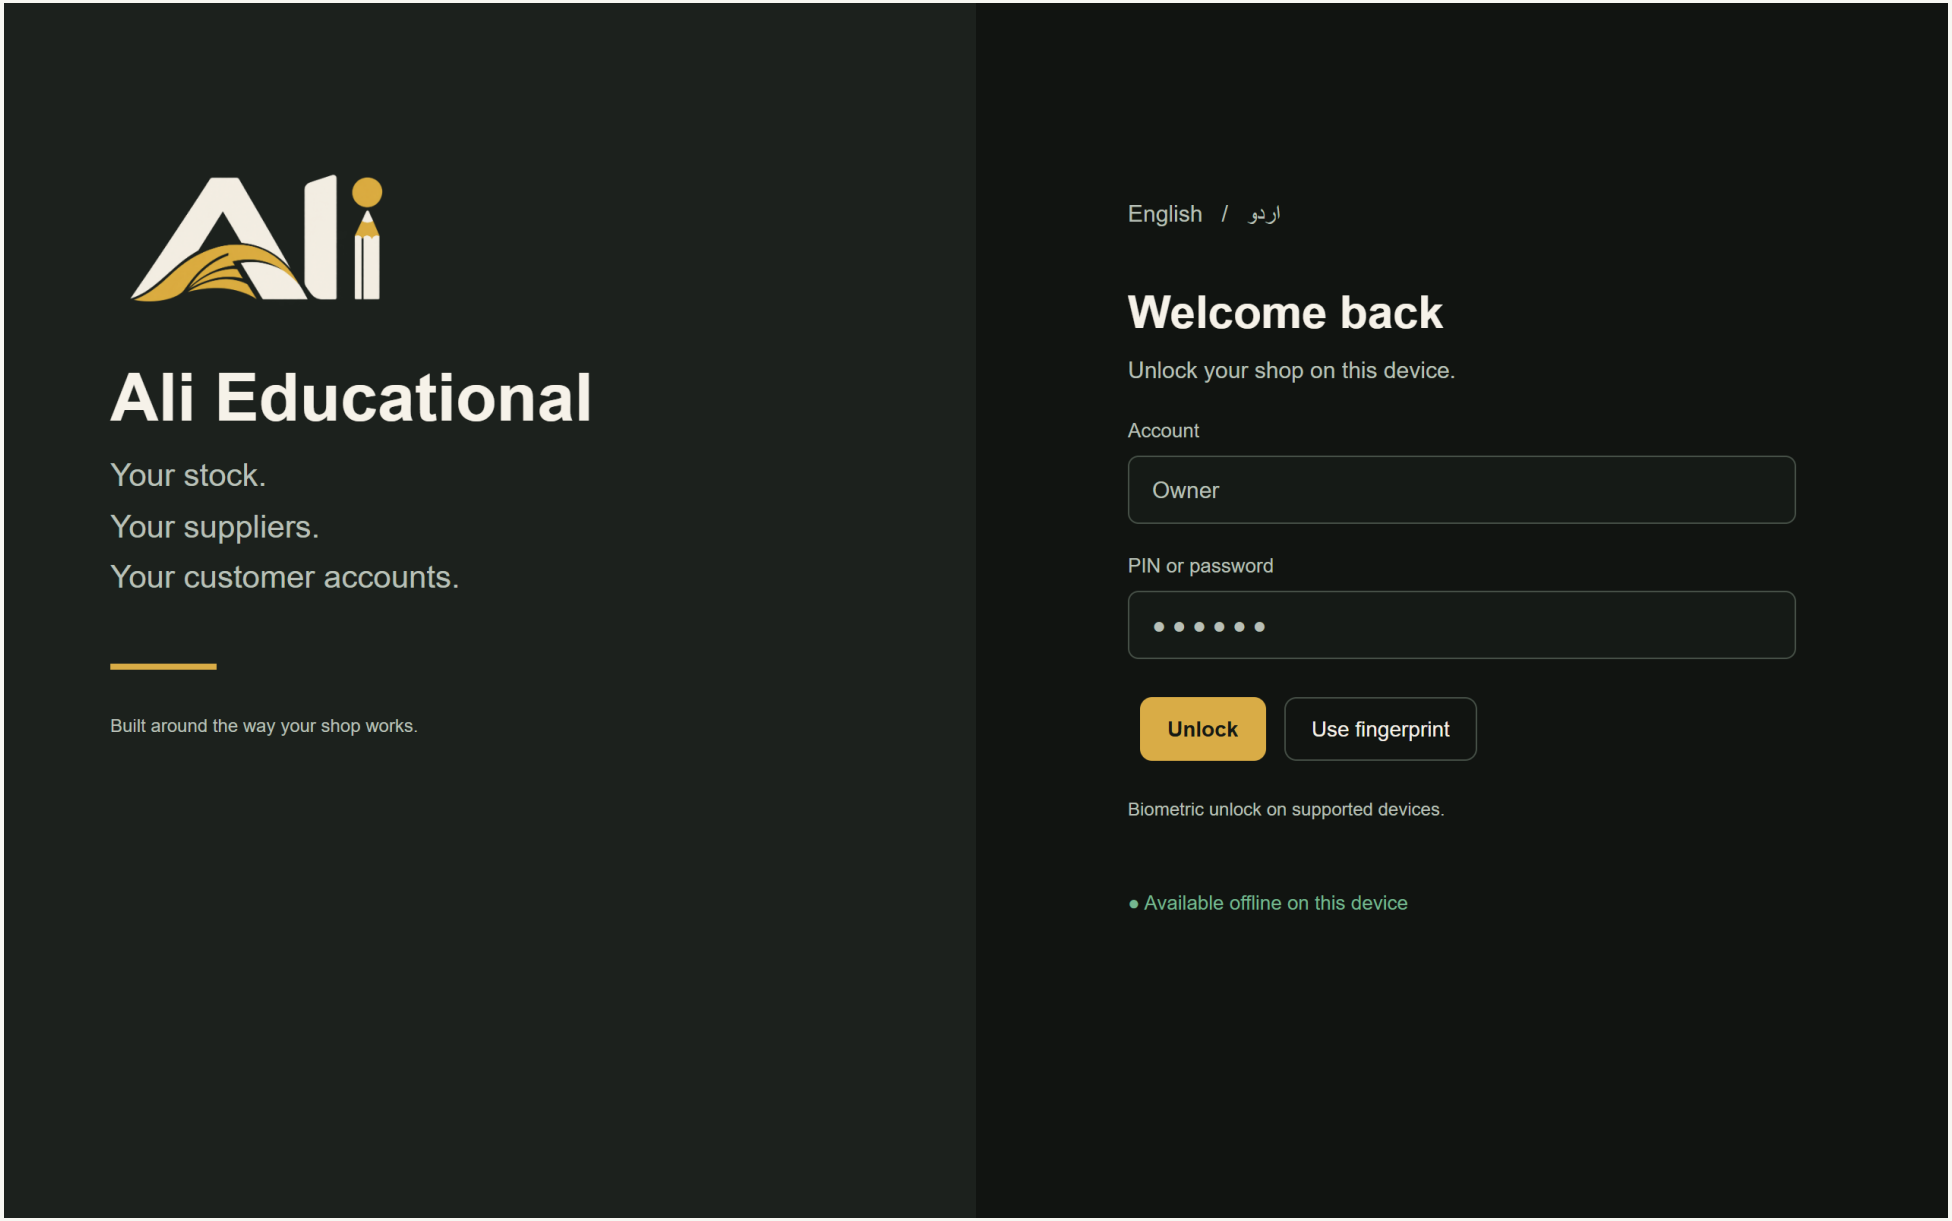

Choose receipt defaults once

One default action and language, with an override whenever you issue a receipt.

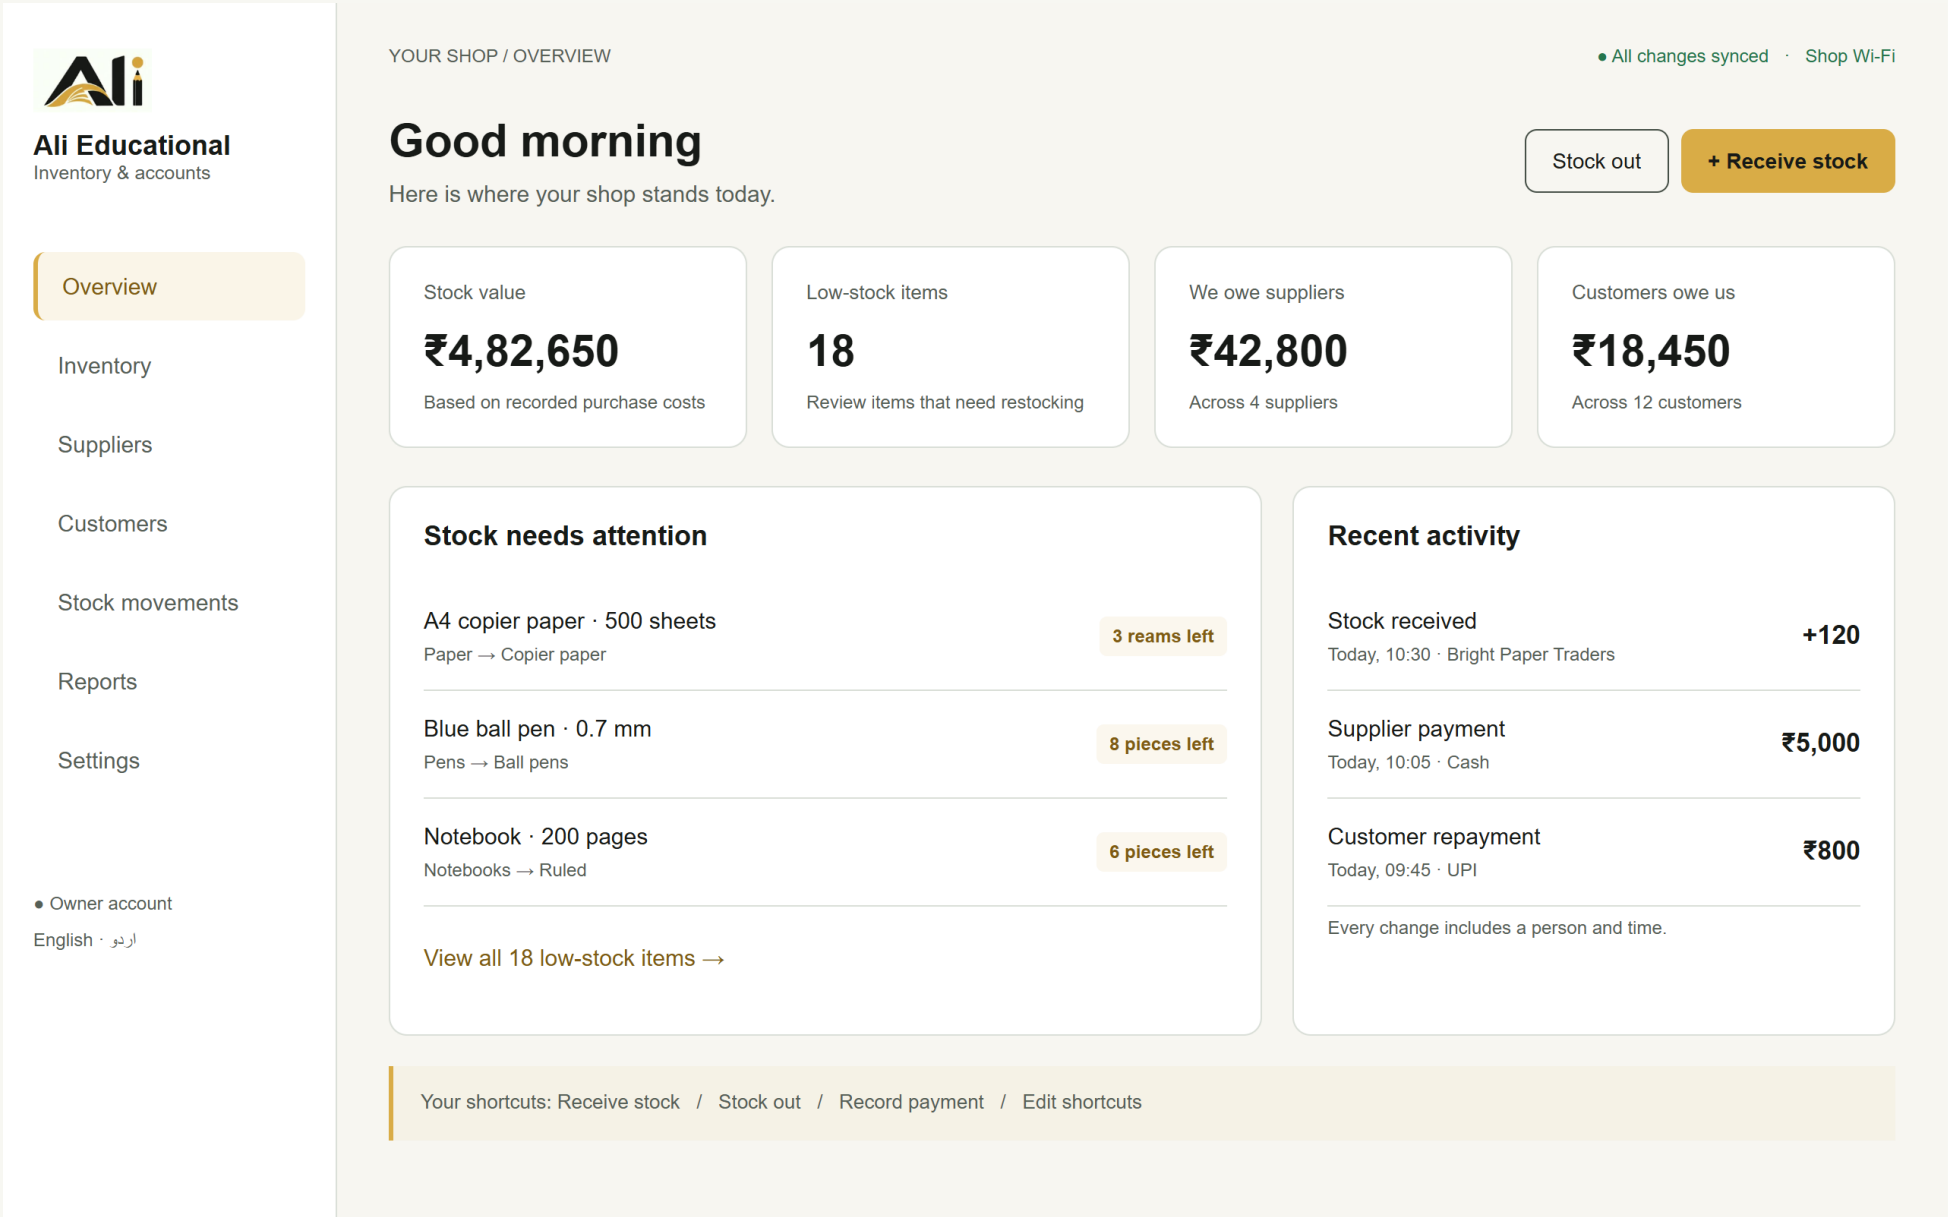

A simple, branded sign-in

The supplied logo uses warm-white lettering and gold details against the dark background.

Optional light appearance

The same inventory-first layout, with a light surface and restrained gold accents.
